

MOFFETT AT WORK

in LP Gas Deliveries

BUILT TO PERFORM

Hiab is the world's leading provider of on-road, load handling equipment. Customer satisfaction is the first priority for us. Hiab's product range includes HIAB loader cranes, MOFFETT truck-mounted forklifts, LOGLIFT forestry cranes, JONSERED recycling and forestry cranes, and MULTILIFT demountables, as well as DEL, WALTCO, and ZEPRO tail lifts.

Here at Hiab USA, we have invested heavily in our service and support fleet as part of our absolute commitment to our customers through our own network of Hiab branch locations. These, along with more than one hundred factory-trained service partners, mean that your MOFFETT forklift is supported by an unrivaled coast-to-coast service network. Wherever you are, we are.

That's our promise to you.

BUILT TO PERFORM

THE MOFFETT LP TANK DELIVERY SYSTEM

Many times, the delivery of LP gas tanks can be challenging due to limited access areas such as hard-to-reach home, construction, or commercial sites. The **MOFFETT** changes all that, due to its small footprint and superior terrainability when compared to traditional delivery vehicles.

- **Compact:** With a wheelbase that is less than one-third of a traditional delivery truck and the ability to turn within its own radius, the **MOFFETT** can reach placement spots not possible with a traditional service truck and crane combination.

- **Superior Terrainability:** The **MOFFETT** features an all-wheel-drive system that can easily power through all types of terrain. Even on construction sites or remote, wooded areas - the **MOFFETT** can place a tank virtually anywhere. Because of its lightweight design, the **MOFFETT** is also gentle on driveways and residential lawns.

- **Multiple Configurations:** The **MOFFETT** handles tank sizes from upright cylinders to 1,000 gallon tanks. Depending on your choice of delivery vehicle, body length, and tank size, you can carry more than a dozen tanks at a time. At the delivery location, the truck is conveniently left on the street, while the **MOFFETT** performs the tank placement.

- **Cost Savings:** The **MOFFETT** LP tank delivery system allows you to buy less costly service vehicles. There is no need for high GVW, 4WD service trucks with stiff boom cranes because the **MOFFETT** does all the heavy lifting. This saves money on both purchases and fuel costs, as well as freeing your trucks to do what they were primarily designed for - looking after your customers.

For all your sales and service needs, call our nationwide hotline at 419.482.6000 to find your nearest Hiab USA branch.
